

Mason's Movable Poultry Fence

Manufactured By
**THE MASON FENCE
COMPANY**
Leesburg, Ohio

It's Quality That Counts!

Dear Friend:-

Here is my latest catalog of Movable Poultry Fence and poultry fence supplies. I have also included some Lawn and Kennel Fences in this book and I know that as you turn through its pages you will find something interesting on each one.

If ever there was a bargain book, this is it.-- Not entirely from point of low prices but from the point of high quality and full value for your money. Take for instance Poultry Fence; it is hard to find poultry fence which turns the chickens big and little-- high fliers and all. Mason's Poultry Fence does it because it has more wires than any other poultry fence made, is closer woven and chickens do not get through or over it. (See pages 4 and 5.)

Mason's Steel Posts and Gates are made the same way.- There is no skimpy light weight material in them. We always put extra heavy material in each article and employ the very best mechanics, consequently we give you heavier, better made goods for your money than you can get elsewhere. Each article we offer is a genuine bargain and if you do not find it so you do not have to keep it.

Hundreds of our customers have written us that Mason's Fence Goods are heavier and better made, look nicer and give greater satisfaction than any they have ever used. Some of these letters are printed in this book and it will pay you to read them.

We have been in the fence business 36 years-- our goods are in use in every state-- a large number of our customers each year buy all of their fencing direct from our factory and know they save money by doing so.

You know the satisfaction of owning the best, and that it always proves the cheapest in the long run.-- Now give us an order for what fencing you need, when it arrives look it over-- put it up-- use it 60 days and then if you do not consider we have given you the best fence bargain you ever had, return it to us and we will refund your money and no questions will be asked.

Sincerely Yours,

A handwritten signature in dark ink, appearing to read 'W. H. Mason'.

Pres.

***Here's the Strongest Fence Guarantee Ever Put
On Paper--- Your Money Back if
You Want it After 60 Days' Trial***

OUR MONEY-BACK GUARANTEE.

Order a Mason's Movable Poultry Fence-- put it up according to our plain instructions-- test it for 60 days, then if you do not consider it the best poultry fence you ever saw, and are not satisfied with it in every particular, ship it back and I will cheerfully refund your money. I am safe in making this guarantee because the fence more than backs it up. These fences have pleased thousands of others and I am positive you will also be delighted with yours. But if for any reason you are not satisfied, I am ready to return your money without quibble or question. The matter of satisfaction is entirely up to you.

W. Mason PRES

How To Order

Your Mason's Movable Poultry Fence

In ordering, use our order sheet if possible. It prevents overlooking any of the little things which are necessary for us to know in filling your order promptly.

In making out your order, just tell us the plan of fence you wish then the size and height. For example say, "ship me your Movable Poultry Fence plan "A", size 12 X 20, six feet high," and give the price.

You Can Pay With Your Check

Having made out your order, then write your personal check for the amount required, enclose order and check in self addressed envelope which comes with the catalog--- seal, stamp and mail to us. When your order reaches us it is promptly acknowledged by letter and the fence is shipped at once.

Our Liberal Terms

You Get 2 Per Cent for Cash In Full with Order

Our terms are 25 per cent cash with order, balance payable when the fencing arrives at your depot. However, if you wish to send your remittance in full payment with your order, which saves us extra bookkeeping, deduct 2 per cent from your order. Most of our customers do this, for it makes them quite a nice little saving on each order.

We Pay the Freight to Your Station

We pay freight on all Mason's Movable Poultry Fences listed in this Catalog; also, on other fence goods if ordered in the quantity mentioned with each description of the article. Or, on any shipment of miscellaneous fence articles weighing 200 pounds or more.

Here's How We Stand with Our Customers Everywhere

Padgett Poultry Farms Company Bethlehem, Pa.

Gentlemen—

In 1919 we bought from you the Mason Movable Poultry fence and it is still in use and in fine condition and looks as though it would last for many years to come. It is very satisfactory and expect to get up another pen in the spring, and surely will get a MASON. It is very easy to put up and makes a very nice looking pen. We are breeders of Barred Rocks, White Leghorns and Anconas.

Our Leghorn Pullets, 6 months old now (December 2) are laying every day nice large eggs. We have several hundred chicks.

Yours truly,

T. L. PADGETT.

Jersey Ridge Farm Davenport, Iowa

Gentlemen—

In reply to yours of the 4th, I am sending snap-shot of the corner of the Poultry Yard we bought from you in 1920.

We use these yards as breeding pens for our best matings of White Plymouth Rocks and they have done us excellent service and are still in good condition while some of our other woven wire fences not so old ARE BADLY RUSTED. I may add that we have never given this Fence a single bit of Paint. We never used the paint you sent with the Fence although it would have brightened up the Fence considerable had we used it.

Yours truly,

LEE SPENGLER,

Certainly A Wonderful Fence

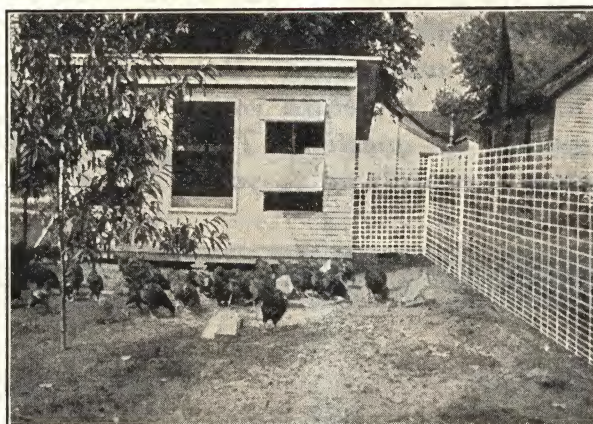

Gentlemen:

In answer to your kind letter on opposite side, will say the Mason Fence we purchased from you seven years ago was placed on our town lot and is standing as good today as the day it was put up without a broken wire.

It is certainly a wonderful Fence and when we are in line for more fence, you will sure hear from us.

Yours truly,

D. D. JOHNSON.
Washington, Pa.

Flock of C. B. Andrews, Ripley, Ohio

Gentlemen:

I have found the Movable Fence purchased from you in May to be perfectly satisfactory in every way and every one who sees it thinks it mighty nice and I do not hesitate to tell them where it can be purchased.

I had no trouble in putting it up and it has stayed put and when I need more fence it will be Mason's Movable.

Yours truly,

C. B. ANDREWS.

Boys 14 Years Old Build Fence

Gentlemen:

In reply to your letter of November 30th, will say that I have received the fence and with the help of a boy friend, the same age as myself (14 years) we had no trouble in putting the fence up, and was well pleased with it as it makes a very nice vard for the chickens and is very neat in appearance.

Yours truly,

MR. ROY G. WEEKLY,
Hibbing, Minn.
2133 Seventh Ave.

Best And Neatest Fence

Gentlemen:

I am more than pleased with the Mason Movable Poultry Fence I bought from you last summer. The Gates were missent but after receiving them, I had no trouble at all in setting it up and everybody admires it. I intend to enlarge my flock of White Wyandottes and add another section next Summer. I can truthfully recommend this fence as the best and neatest fence on the market.

Yours truly,

MARTIN G. VALLESHEY,
Collins, Wis.

Boy With Mothers Help Puts Up Fence

Dear Sirs:

I have received your letter asking about the time spent in erecting my poultry fence. I am but 15 years old but I put the fence up in about three hours with a little help from my mother in putting the wire on the posts.

I sure had a better looking and more durable fence than could be purchased for the same price in this locality.

Yours truly,

F. W. SHURTLEFF,
Milford, Mass.

Read These Interesting Letters of Praise from Folks Who Use Our Fence

Lone Oak Poultry Farm Hammonton, N. J.

Dear Sirs—

Enclosed please find my check for \$79.75 for Fence as per sketch submitted. This is my third order for complete Poultry Fencing, and a little later, I intend to order more so as to make my enclosure 200 feet by 200 feet, and I tell you it certainly looks good.

It keeps me busy telling people who makes this Fence, as everyone likes the looks of it. Some, of course, say it will rust, but I tell them it is not like the Fence that came from ———, which rusted in seven months, and the proof is I have had my first Fence up for more than two years and it now looks like new. I will say that I have the nicest, neatest and best Fence in Atlantic county and everybody looks twice at it when they pass my place.

I also want to thank you for the interest you took in my plans and orders as I can readily see you understand what your customers want, and you have always pleased me with your prompt and careful attention to my orders.

Yours truly,

E. J. SWOBODA.

Andrews Poultry Farm Fort Wayne, Ind.

Gentlemen—

The Poultry Fence I bought from you in 1919 you may be surprised to know I am still using. At the time I bought it I was living on a city lot and it made a very attractive back yard for me. I use your Portable Fence in different ways—in the Spring for dividing runs and in the Fall I move it in front of the coop so as to let the chickens run in the front yard, and always have at hand your Durable Gates to go with it. I am waiting for your new Catalog as I will need more Fence in the Spring.

Yours,

CLAUD ANDREWS.

Holds Red Leghorns

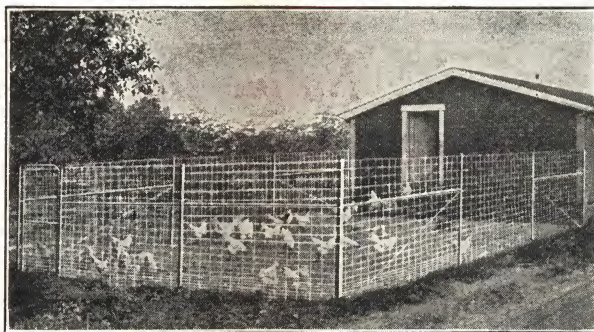

Gentlemen—

In regard to the Mason Fence, I have bought the second time of the Company, and I think it is the best Fence on the market. It makes a fine job. I have seventy-five Red Leghorns and not one ever got over the top— sixty inches high.

Yours truly,

GEORGE SANDELBACH,
Ft. Thomas, Ky.

187 Mt. Pleasant Ave.

Wokokonut Poultry Farm Little Compton, R. I.

Gentlemen—

Replying to yours of the 20th, allow me to say just this. I am very much pleased with my Mason's Movable Poultry Fence. It adds very much to the appearance of our place (Wokokonut). I haven't seen any thing in this neck of the woods that I would exchange it for. It now encloses a flock of Rhode Island Reds.

Respectfully,

W. K. HUNT.

Redwood Poultry Farm College Hill, Cincinnati, Ohio

Gentlemen—

All of the Fence and Gates as well as the Posts arrived in good condition and are now up. Every visitor remarks what a fine Fence you have, and my opinion is that I do not believe anyone could have a better Poultry Fence regardless of how much they pay for same. The Poultry Fencing for my prize winning Rhode Island Reds is wonderful, and every visitor to see my Reds wants to know where I purchased the Fence for runways.

In closing I wish to say that all of Redwood Farm will be fenced with the Mason Fence Company's Poultry Fence, and as I extend my Poultry Department, I shall think of no other fencing except the kind that I purchased from you.

Yours truly,

MAJOR C. B. WOOD.

Gage Baldwin Company Duluth, Minn.

Gentlemen—

I have your letter of the 17th, in which you ask me about the Movable Poultry Fence which I bought back in 1919.

This Fence gave very satisfactory service during the time I was using it, but I discontinued keeping poultry two years ago, and the fence was then in such a condition that it could be taken down and sold. As a matter of fact, however, I didn't sell it— I gave it to a fellow who needed it, and he was able to re-erect it, and it is now giving satisfactory service.

I used the Fence for a back yard poultry flock and if I was to put in another Fence, I would order another Mason Fence

Very truly yours,

GAGE BALDWIN COMPANY.

Wouldn't Take Double The Price

Gentlemen—

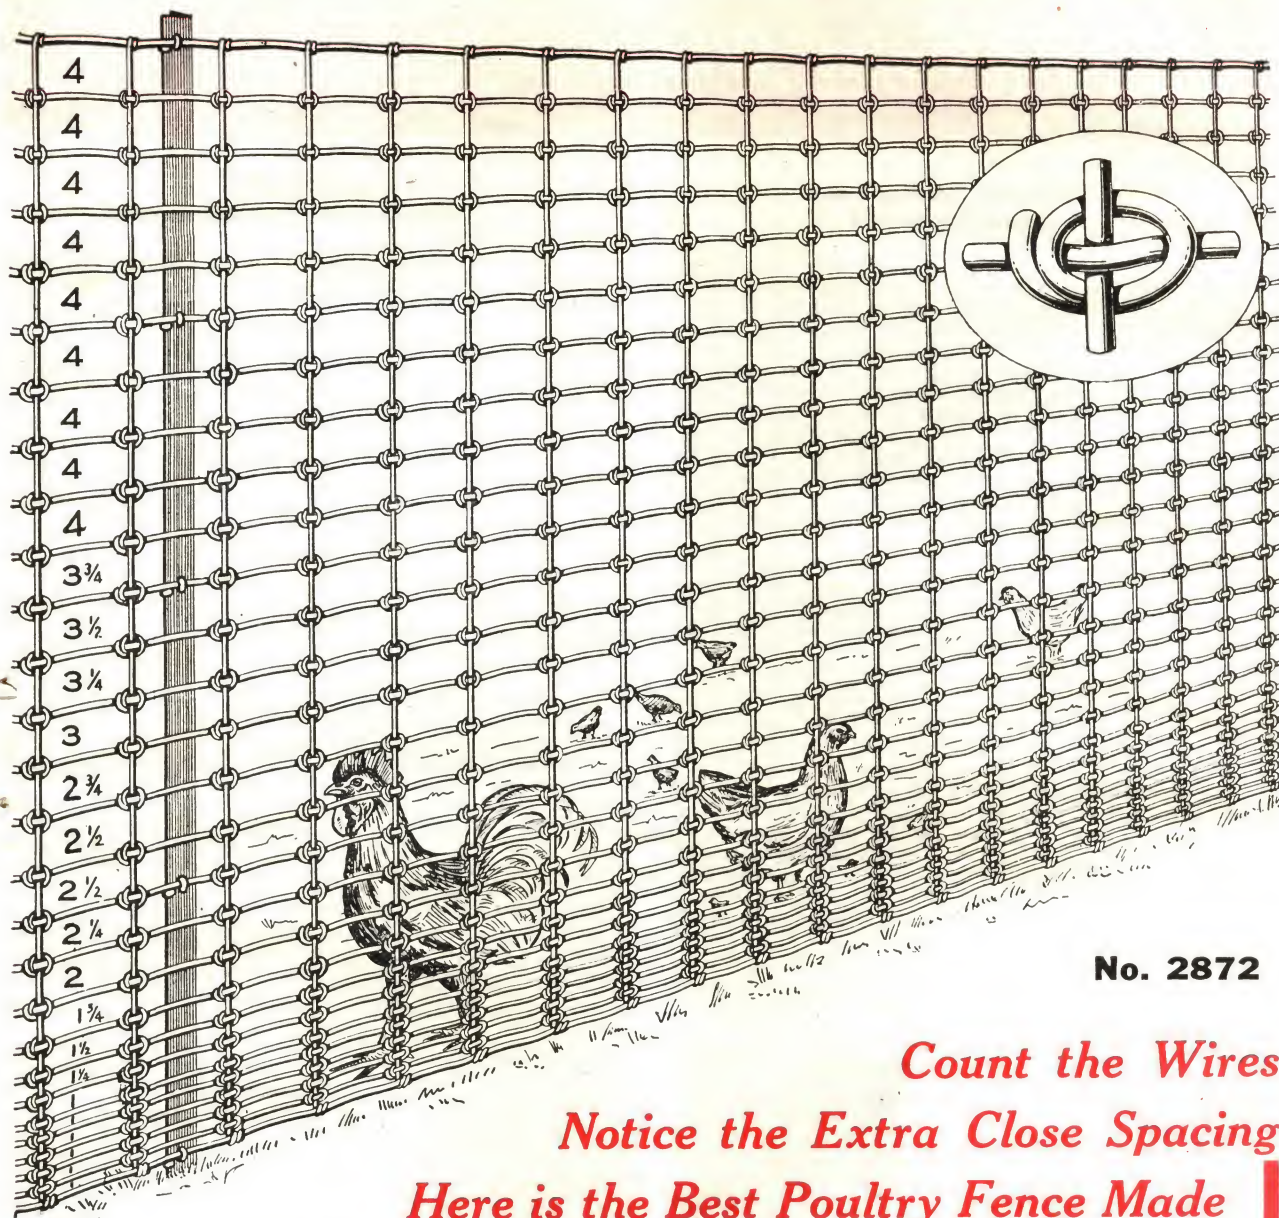

I can truthfully say that I am more than pleased with the Mason Movable Poultry Fence I purchased from you a few months ago. Double the price would not buy it if I could not get another one. It is a pleasure to me to recommend this Fence to all brother poultrymen.

Yours truly,

CHARLES V. BEATTY,
Angola, Ind.

Breeder, Black Cochins
Bantams.

Mason's "New" Poultry Fence

No. 2872

Count the Wires

Notice the Extra Close Spacing

Here is the Best Poultry Fence Made

This is Mason's latest improved Poultry Fence fabric.--- The closest woven fence in existence.--- You see that it has more wires than any other fence made and the spacing is much closer— Six one-inch spaces at bottom makes the usual board at the bottom unnecessary for turning small chicks,— upper spaces are proportionately close— no chicken can get through this fence.

SPECIFICATIONS

Top Wire		NO. 11
Bottom Wire		NO. 12

All Mason's Movable Poultry Fences are fitted with this "New" Poultry Fence Fabric.

SPECIFICATIONS

Top Wire		NO.11
Bottom Wire		NO.12
Filler Wires		NO.14

All of Best Basic Open Hearth
Heavily Galvanized Wire.—

Weight 13 lbs. to the rod.

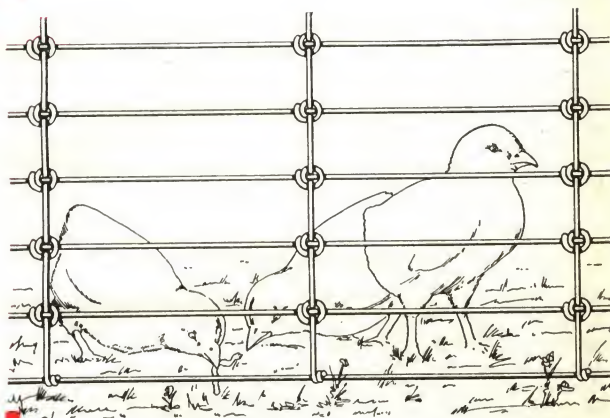

More about Mason's New Poultry Fence That Turns all the Chickens Stretches as Smooth as a Ribbon Looks Nicer and Lasts Longer

We are specialists in poultry fencing— we have spent years finding out the kind of fence poultrymen like best. ---

It makes no difference how high a poultry fence is, if the number of wires have been skimped it is sure to have big open spaces that let the chickens through.--- If you happen to get one of these cheap fences, it is worse than none because then your money is spent and you have no fence either. Isn't it better to pay a little more and get the best?

All Mason's Movable Poultry Fences Have This Chicken Proof Fabric

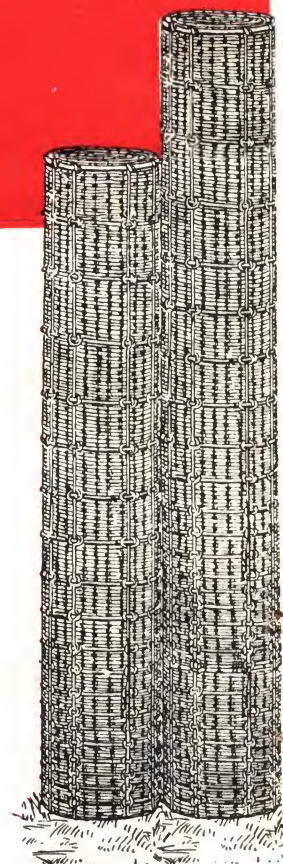

Mason's Movable Poultry Fences are all fitted with Mason's "New" Poultry Fence Fabric which has more wires, is closer woven than any fence known and is positively guaranteed to turn your chickens little and big.

Extra close weave at bottom turns the little Chicks.-- The Six Foot height turns the high fliers. All others must stay in.

Send for Free Sample

We will be glad to mail you a small sample of Mason's "New" Poultry Fence Fabric to prove to you that it is unequalled.

Made Five and
Six Feet High

Strong and Well Galvanized

You don't want the small soft wire, limber jointed fencing that sags and buckles like netting,--- it's dear at any price. Now notice on opposite page the straight stiff one piece stays of Mason's "New" Fence. They are close spaced— hold the fence up full height from end to end— heavy top and bottom wires give additional strength, made of Best Basic Open Hearth Steel Wire, heavily galvanized with pure Zinc. This is a real fence— you can depend upon it for years of service and satisfaction.

Fabric Prices

If you do not care to buy a complete Movable Poultry Fence, then you can have Mason's New Poultry Fence Fabric cut to any lengths wanted at the following prices per running foot.

No. 2560	5 Ft. High	. .	Per Ft. 6 Cts.
No. 2872	6 Ft. High	. .	Per Ft. 7 Cts.

These Solid End and Corner Brace Units are the Life of your Poultry Fence

They'er Different and Better

Like our Extra Close Woven fence and Movable Line Posts, Mason's End and Corner Posts are different and Better- You know that the old-fashioned way of bracing End and Corner Posts with a slanting brace is a nuisance--- chickens walk up the braces and hop over the fence; besides slanting braces have a tendency to raise the posts out of the ground bringing, the fence up with them, then chickens creep under.

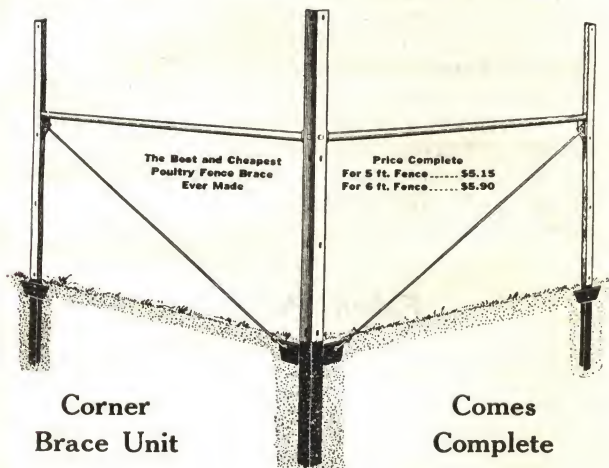

Wherever you see the old-style slanting brace used, you are sure to see a loose fence with gate posts out of plumb and gates not latching.

You Get This New Bracing With Mason's Movable Fence

For our Movable Poultry Fences we developed these quick, easy set End and Corner brace units. The End Unit consists of a large End Post, a Brace Post, tubular brace with brace wire and ratchet for tightening. Corner Units have a large Corner Post, two Brace Posts, two Brace Wires and ratchets. Everything comes ready to assemble. You drive the posts the proper distance apart, slip in the brace, tighten the Brace Wire and the unit is ready for the fence. You will find them as firm as a rock.

Straight Braces Keep Chickens In

Notice our braces run straight from the Big Posts and push square against the Brace Post. Stretch the fabric as much as you like and this Anchor Post will not raise or give. Better still, straight braces lay so close against the Fence Fabric that it's impossible for the chickens to light on them.

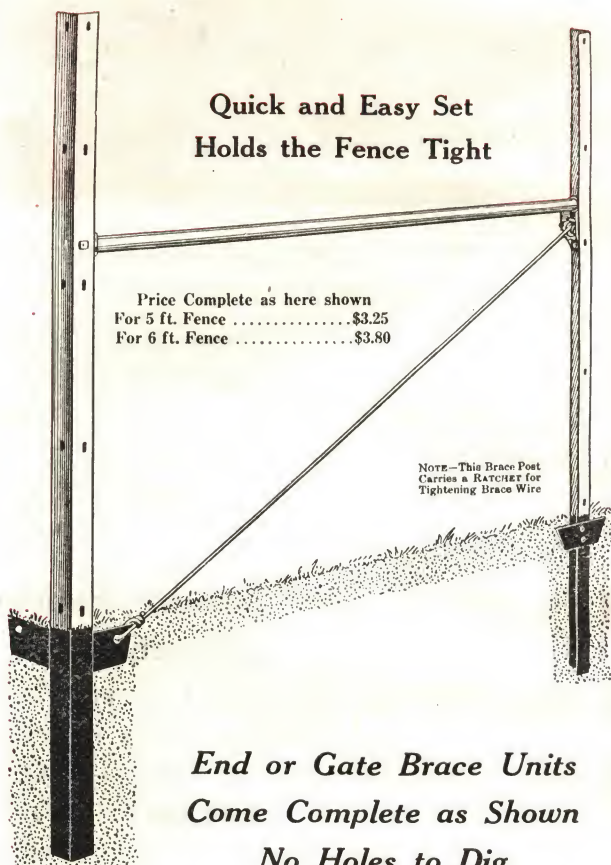

**We Pay the Freight when Shipped
with Fence or Gates.**

Quick and Easy Set Holds the Fence Tight

Price Complete as here shown
For 5 ft. Fence\$3.25
For 6 ft. Fence\$3.80

NOTE—This Brace Post
Carries a RATCHET for
Tightening Brace Wire

End or Gate Brace Units Come Complete as Shown

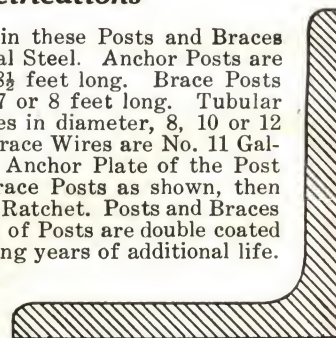

No Holes to Dig

It is a fact that you can Drive All of the Posts required for Your Mason's Movable Poultry Yard and have them ready for the fence in less time than it takes to set and brace one wood end post— and do it easier. They save all the hard work of digging holes, and make a much nicer looking fence.

Specifications

The material used in these Posts and Braces is High Carbon Structural Steel. Anchor Posts are $1\frac{1}{2} \times 1\frac{1}{2} \times \frac{1}{2}$ inches, 7 $\frac{1}{2}$ or 8 $\frac{1}{2}$ feet long. Brace Posts are $1\frac{1}{2} \times 1\frac{1}{2} \times \frac{1}{2}$ inches, 7 or 8 feet long. Tubular Braces are 1 3-16 inches in diameter, 8, 10 or 12 feet long as required. Brace Wires are No. 11 Galvanized, fastened to the Anchor Plate of the Post and are stretched to Brace Posts as shown, then tightened with a Special Ratchet. Posts and Braces are painted gray, bottom of Posts are double coated with Asphalt Paint, adding years of additional life.

CROSS SECTION

The above is a cross section exact size of Mason's High Carbon Steel End, Corner and Gate Posts.

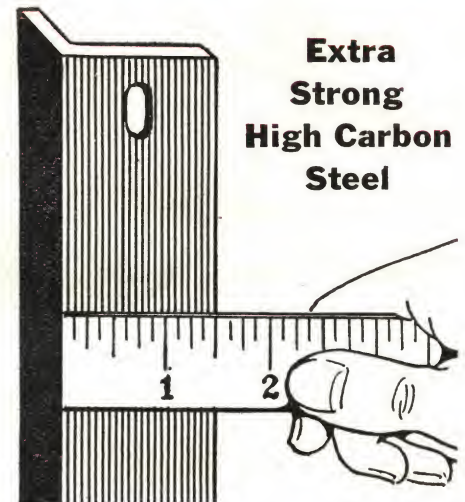

Mason's Movable Poultry Fence Posts

With Patent Quick Clinch Staples

Our Movable Poultry Fence would not be a success without Movable Posts. The ordinary steel post is not intended to be moved but left permanent, consequently we had to invent a post that would stand moving often, and also a way to fasten and unfasten the fence to these posts in a quick easy manner.

A Real Movable Post

Here is a post 20 per cent larger than the average farm fence post.--- You can drive, pull and reset it as often as you like.--- No danger of bending or breaking because it is made to stand hard usage, besides its husky size insures you of an extra solid fence.

A 20% Larger Post

Measures $1\frac{1}{2}$ -inches on each face and is $\frac{1}{8}$ -inch in thickness.--- Extra heavy weight throughout.

Patent Staples Make Moving Easy

No fence can be quickly moved if you have to use ordinary post fasteners, for it takes too much time to unfasten and fasten the fence to the posts.

The Quick Clinch staple is our patent.--- The picture shows how perfectly it works. Place a fence bar over the opening in the post-- straddle the staple over the bar and push it through the opening until the long prong projects at edge of post, as shown ready to clinch.

One tap of the hammer clinches this prong against the face of the post, firmly fastening the wire in place. To detach the wire take wire pliers, raise prong and remove staple-- simple, quick and easy. Anyone can do it. Fence fastens to corner posts same way.

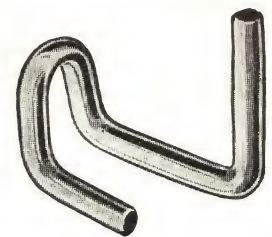

You get the Best Posts and Fasteners with Mason's Movable Poultry Fences.

Raise Healthier Chickens and More of Them

Use Mason's Movable Poultry Fence

*The Fence that comes Complete---
You have nothing to furnish
but the ground*

Mason's Movable Poultry Fences are the last word in Poultry Fencing. There are none better or their equal-- they are made entirely of steel, come to you complete in every particular,-- extra close woven fence and gates, strong posts and braces also tools for building. You have nothing more to buy-- your fence is already to assemble the moment it reaches you. It's not like trying to make a fence from materials picked up at stores where the fence is of one make, posts of another and gates of still another, and nothing fits. Mason's Movable Fences are all made here in our factory, therefore all parts match and fit perfectly.

Easiest Fence in the World to Build

A Mason's Movable Poultry Fence is so simple to build or move that a fourteen year old boy can do it easily, even women have put up these fences, letters from users printed in this book prove this. You will find our Poultry Fences the easiest in the world to build. All parts come tagged--- the blueprint shows where each part belongs, and clear instructions tell how any one can quickly assemble the fence.

*Your Success with Poultry Depends
Upon Keeping Your Flock on
Fresh, Clean Ground*

No one can raise healthy birds on ground which has been used year after year and become germ infested-- yet you see poultry raisers keeping their flocks on such ground and consequently they are always pestered with diseased fowls all because their fences cannot be moved. The big reason for Mason's Movable Poultry Fence, is you can move the runs quickly to clean fresh ground and always keep your birds healthy.— This means success.

Easy and Quick to Move

You can take down, move and reset the ordinary size Mason's Movable Poultry Fence in less than two hours and then have the satisfaction of seeing your flock thrive on clean fresh ground. My system of fencing eliminates forever the expensive fence builder who's charges are from 50c. to \$1.00 per hour. You will really enjoy putting your Mason's Movable Fence in place yourself.

You can have any size you want. This catalog lists 150 sizes of Movable Poultry Fences in four different plans— Should none of these meet your needs we will make a Special fence for you.— See full details for special fences on another page.

Mason's Movable Poultry Fence Plan "A"

Made in

36 Standard Sizes

Either 5-foot or 6-foot Heights

\$16.85

Freight Paid

**Comes Complete --- Close Woven Fence
and Gates, All Posts, Braces and Stretchers
Everything Ready to Put in Place
the Moment it Reaches You**

Think of the time you save by getting one of our complete Movable Fences—you can have it completed and forgot about, in less time than you can bother with hunting up the material for an ordinary fence—besides you are sure of getting the nicest and best poultry fence you ever saw—and remember if you don't find this so ship it back and we will refund your money.

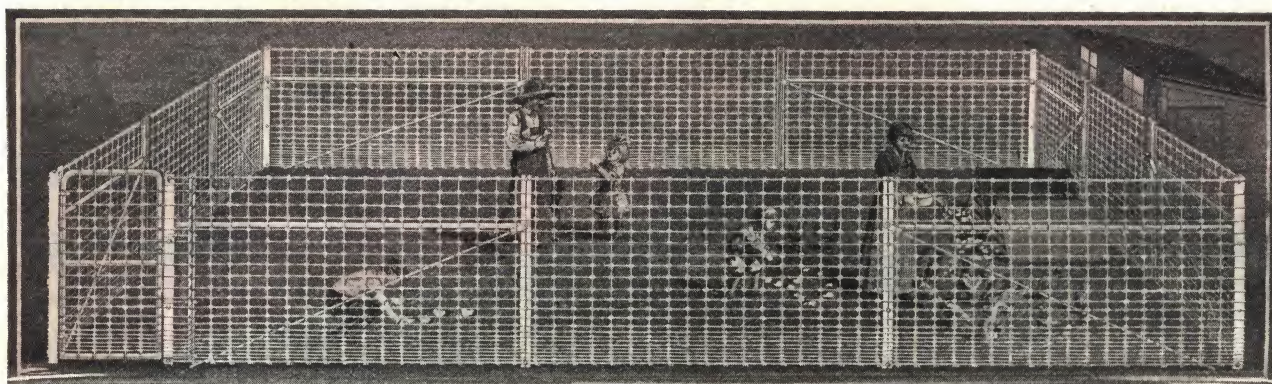

Keeps Your Chickens Healthy

The Mason Movable Poultry Fence shown above can first be used on one side of the poultry house until the ground becomes foul and then moved to fresh ground adjoining the other side of the building. Then, while using this spot, freshen the first location by cultivation and return your Fence to it when another change is necessary. By this change once each year you are insured of a healthy flock, free from the many diseases that are traceable to contaminated soil.

\$18.50

Freight Paid

Fresh Eggs Direct from the Nest

What food is more nutritious or palatable than good, fresh eggs, and what satisfaction it is to be able to gather them fresh from the nests of your own hens; besides what a saving it is to the family pocketbook, for eggs are high priced.

A Nice Flock on Small Space

This fence appeals especially to the city man who has but small space. He may select one of our stock sizes or have one made to order just the size and shape he requires; then with the addition of a piano box and a dozen good hens, he starts his own fresh egg factory right in his back lot and the scraps from the table, which otherwise would go to the garbage can, feed the fowls; so their upkeep is practically nothing.

Many back yard poultry raisers keep blooded stock and sell the eggs for hatching at fancy prices.

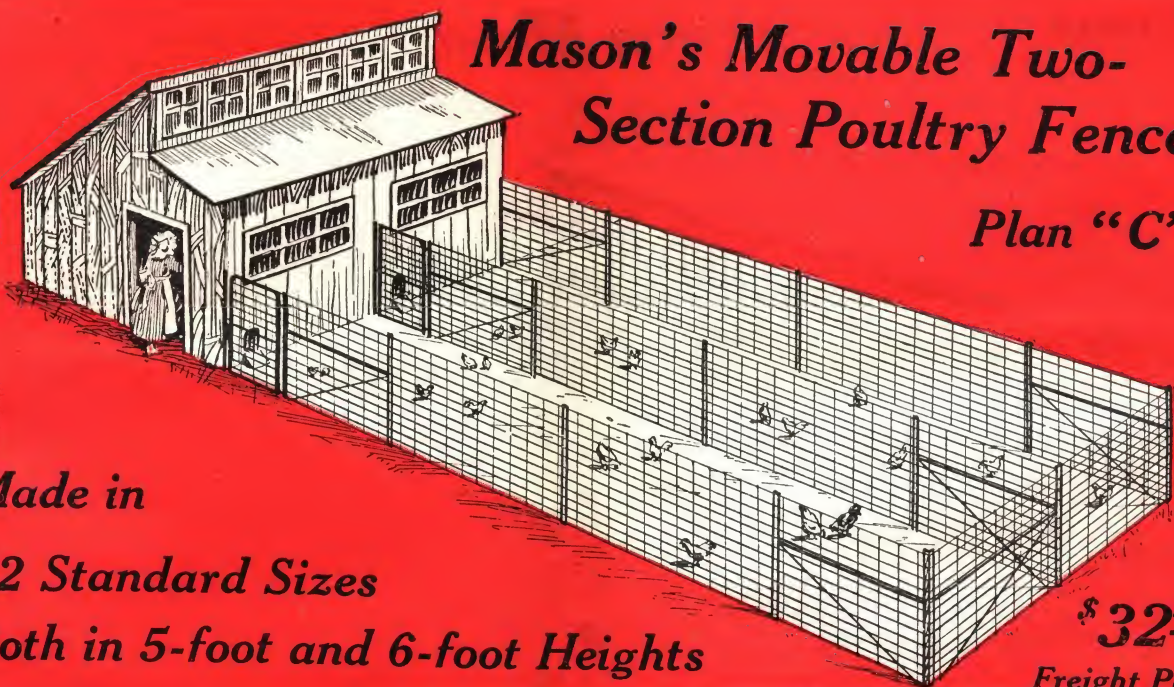

**Take It With You When You Move and
Raise Chickens Wherever You Go**

It doesn't make any difference whether you own the property you occupy or not. if you have a small space available, you can keep a nice profitable flock of chickens in a Mason's Movable Poultry Yard.--- Should you move, take the fence with you, and continue your poultry operations, for this fence is easily moved; or you can sell it any time for a good price and the purchaser can move it where he pleases.

Both in 5-foot and 6-foot Heights

\$32.⁹⁵

Freight Paid

Keeps Chickens Healthy

Annual changes of yard location is recognized by leading poultry raisers as the best way to combat disease germs in contaminated soil.

Being movable this fence is first used on one side of the poultry house until the ground commences to get foul and then moved to fresh, clean ground at the other side, changing back after the ground has been rested or cultivated a year.

The division permits separation of flock for breeding or laying purposes. Additions may be added to either side of this fence as required.

Get The Largest Profits

If you want to get the biggest profits year after year from your poultry, do not think of using the ordinary poultry fence that cannot be moved. We have worked out all the details of a Movable Poultry Fence for you. It has proved successful in thirty-nine states and in foreign countries for more than nine years. We sell it to you with the understanding that if you do not like it return it any time within sixty days and get your money back.

You will take no risk in giving a Mason Movable Poultry Fence a trial, but, on the other hand, you will be equipped to raise healthier poultry— you will have fewer dead ones and much more money at the end of each year for many years to come.

Have the Best Looking Fence It Pays Big

The poultry raiser who takes pride in the appearance of his pens, especially those who raise show birds, a Mason's Movable Poultry Fence is worth all it costs, because of the favorable impression it always makes on visitors and customers, therefore it's good business from an advertising and economical standpoint to use Mason's Poultry Fences.

A Real Fence for Poultry Raisers

Here is an ideal Poultry Fence plan for those who raise poultry on a larger scale. It is clean, sanitary, vermin and varment proof, besides it is 100 per cent better looking than any Fence you could possibly construct from materials gathered at random and generally costs no more.

The divisions permit the separation of the flock from one to four different pens as required for laying and breeding purposes and which conforms to the practice of intensive poultry raising.

As these Fences are easily moved, many of our customers use them one season at one side of the poultry house and the next season at the other side, which insures a more healthy flock due to change of location.

We Make Any Size Fence to Order.

What to do Should You Wish to Fence in a Poultry Yard of Irregular Size or Shape

We Make Movable Poultry Fences

To Fit Any Lot or Space

At No Extra Charge

To You

You can have a Mason's Movable Poultry Fence made to fit your particular need— no matter how large or how small your plant is— there will be NO EXTRA CHARGE over any standard size, using the same amount of materials.

Your Fence Made to Order

We make fences to fit lots of any shape or to join to side or to end of coop, or a series of runs to join at front or rear of modern poultry house. No matter what your Poultry Fence needs are, we can make up to your order a Mason's Movable Fence that will give you better satisfaction than any other fence you can get, and nine times out of ten, the total cost will be less.

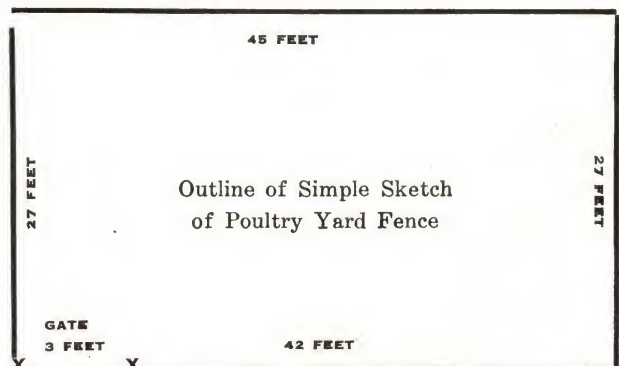

Use Our Free Planning Service

If you require a Special Fence for Your New Poultry Plant, be sure to take advantage of this FREE SERVICE. Have Plans and Specifications drawn up by our expert, following your suggestions. Do not buy Poultry Fence of any kind until you have done this. Remember that sending us a sketch of your fence in no way OBLIGATES YOU TO BUY, but does put it up to us to show that we can furnish you a fence exactly suited to your needs, and at a figure which will make your investment profitable, and this we will be glad to do.

How to Measure Ground and Make a Sketch of Your Proposed Fence

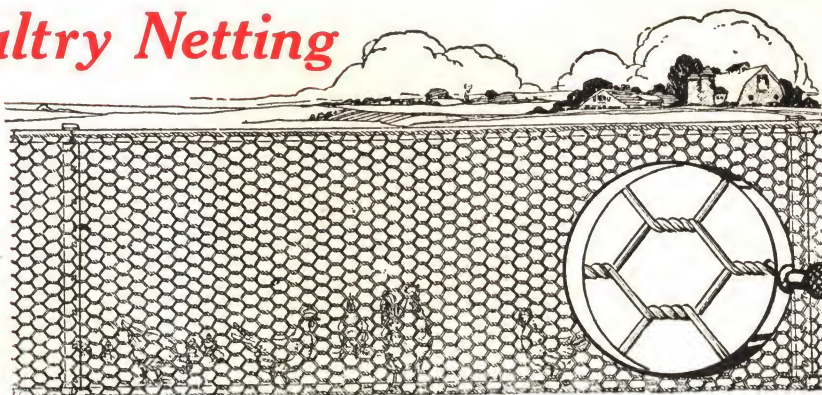

Take a tape line and measure the ground where your fence will be located. -- Make a rough pencil sketch showing measurements of sides, ends and divisions with location of gates. Forward this sketch to us and we will work out your idea and submit you a detailed drawing and specifications. Also an itemized list and prices of all parts necessary to make your fence complete and ready to put up.

Our quotation will cover Fence, Posts, Gates, Braces and all tools necessary -- you will not need to spend another cent for anything because our price will be **freight paid to your railroad station.**

Bargains in Poultry Netting

**Best Quality
Galvanized After
Weaving
\$1.24
per roll
Freight Paid**

Mason's Guaranteed Netting

There is as much difference in the quality of Poultry Netting as there is in fences. The cheap, galvanized before weaving kinds are scarcely worth putting up; they rust out in a short time. A few cents more per roll buys Mason's galvanized after weaving— this makes a firmer, stronger netting because all twists are soldered together. More zinc must be used in this process, hence the wires are doubly protected from rusting by the heavier coating. This galvanizing after weaving is a point that should not be overlooked in selecting your netting. Our netting is noted for its smooth, even weave and fine stretching qualities.

We Pay Freight on 3 Rolls or more of Netting.

Real Bargains!

In Stiff Stay Poultry Fences

Should you wish to get along for a while with a cheaper fence than "Mason's Movable" then you will find our Economy Poultry Fence and Steel Posts just what you are looking for.— They are high quality goods sold at real bargain prices.

Notice the fence how close spaced it is and that the stays are straight, stiff and in one piece. It is understood that Economy Fences are not made of as heavy wire or as rugged and strong as our other fences, but they are guaranteed exceptional value for the money and there are none better at any ways near these low prices.

No. E2048 *Economy Poultry Fence*

Close Woven -- Well Made -- Low Priced

If you want to cut your fence expense down to the limit, use this fence. It is even cheaper than netting—stretches perfectly—no top or bottom boards needed to hold it in place.

This fence is just as carefully woven, has the same high grade wire as all other Mason Fences; the only difference is the wires are smaller.

Considering it is a 20 bar 48 inch fence with 6 inch stays and comes to you freight paid at 29c per rod; it is certainly a big bargain.

Shipped only in full rolls containing 10, 20, 30 and 40 rods each.

Economy Poultry Fences

These two fences are money savers. If you are just commencing to raise poultry you can try out your ideas at little expense by using these fences. Take your choice of the 60 inch or 72 inch heights. Both fences are very close at bottom as shown. The construction is of the very best type-- straight one piece stays 6 inches apart-- no top or bottom boards needed--- best basic open hearth heavily galvanized wire is used, woven even and smooth. For low priced fences, these cannot be beat. Don't forget to order posts-- for best quality, our prices have them all beat.

Don't Spoil Your Poultry Fence and Netting by Stretching with Big Farm Fence Stretchers

Get Mason's New Poultry Fence Stretcher and Do the Job Right

You know the big heavy Fence Stretchers used for stretching farm fences are not suitable for erecting poultry fencing—they are too heavy and clumsy and hard to handle and are so powerful that if you are not very careful you are liable to strain your poultry fence out of shape or pull it in two.

We have made this little stretcher especially for stretching poultry fences and poultry netting. It's light and easy to handle and speeds up the work.

WEIGHT LESS THAN 16 POUNDS

A small boy can handle it, and it has just the right power for pulling poultry fences and netting up evenly without straining the wires. It stretches these fences just right to give you the most service and the smoothest, neatest appearance.

FASTEST WORKING STRETCHER MADE

This Stretcher has our Patented One Minute Clamp. You can put it on or take it off the Fence in less than one minute—and there are no bolts or nuts to bother with. This Improved Clamp holds the Fence like a vise and never slips. The One Minute Clamp consists of two pressed steel bars, having in the center of each a slight groove running lengthwise, one bar fitting in the other. The Fence is gripped between these bars by a quarter turn of each of the six clamping cams. When the Clamp Bars have been forced together on the Fence the grooves in them form curves in the Fence Wires which prevent them from slipping through the Clamp. After the Fence is stretched the Clamp is quickly removed by a quarter turn of the Cams which lets the bars apart.

The Stretcher Jacks

The Jacks that do the pulling are fastened to the Rear Clamp Bar. They consist of a Winding Drum and a Ratchet which allows the Drum to be revolved either way for stretching or can be placed neutral for unwinding.

How to Stretch Fence

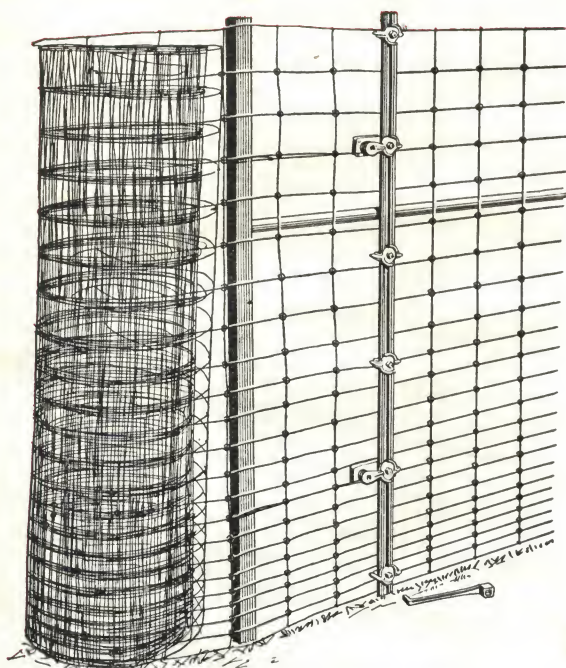

To stretch the Fence two heavy wires are attached to End Post and put through the Winding Drums on the Stretcher Bar, and Drums are then turned with the Special Wrench that comes with the Stretcher, pulling the Fence up to the End Post. Notice the Fence is pulled up at both top and bottom, which is the only way to stretch your Fence true and even.

Climax Poultry and Garden Fences

An Extra Strong and Durable Poultry Fence

SPECIFICATIONS

TOP WIRE NO. 11
Bottom Wire No. 12
Stay Wires, No. 14.
24 Stays to the rod.
All of Best Basic
Open Hearth Heavily
Galvanized Wire.

If you prefer to build your fence using wood posts, then you will make no mistake if you use this new Climax Poultry Fence either 48 or 60 inches high for we guarantee it to give you entire satisfaction or refund your money.

Most Modern Construction

In place of twisting the stays around the line wires, which not only weakens the fiber of the wire and breaks the galvanizing, but results in limber jointed, quick rusting fence, we use straight, stiff one-piece stays, which hold the fence at full height from end to end when stretched; this saves on posts and makes bottom and top boards unnecessary. Stays are locked to the line wires with our improved lock which has no place for moisture to collect and cause rust.

Strong Enough to turn Stock

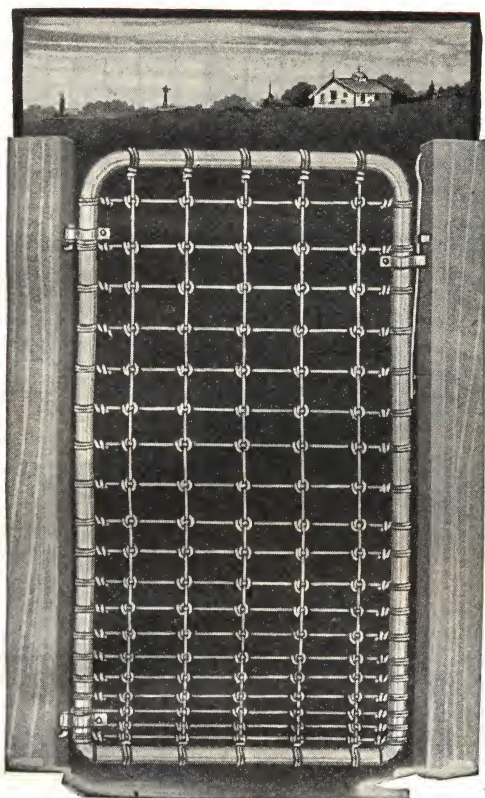

Notice the heavy wires from which this fence is woven -- it's a strong, long-lived fence -- it will turn stock as well as poultry. See how closely this fence is woven, especially the one-inch spaces at the bottom and it's thoroughly chicken proof all the way up. Select the height you require and order a few rolls. You will be more than pleased with the way it stretches, looks and lasts. Gates to match this fence shown on opposite page.

We Pay Freight on Thirty Rods or less amount if Shipped with Gates.

Climax	60 Inches High	60 cents a rod.
Put up in 10, 20 and 30 rod rolls.		

You Can Select a Splendid Poultry Gate Here That will Match Your Poultry Fencing

Climax Poultry Gates \$2.⁴⁵

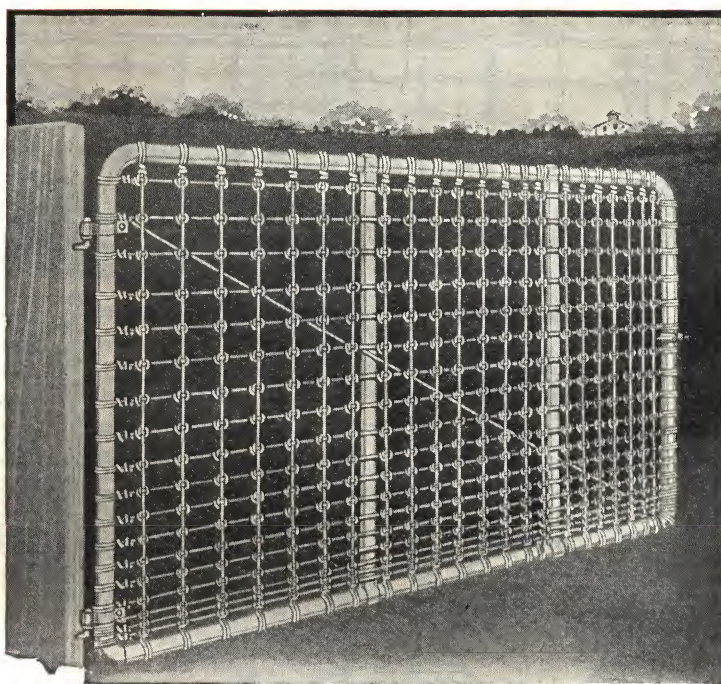

Keeps the Chickens Where They Belong

Here is a Gate that outlasts two ordinary Poultry Gates and gives better satisfaction because of the better materials used.

Notice how well made it is — the frame is one solid piece of steel tubing $1\frac{1}{8}$ inches in diameter. There are no holes bored in this frame for the moisture to enter and start rust — all fittings clamp on and are adjustable. Most important of all is the close chicken proof filling.

This gate has automatic spring latch and comes complete with fittings for wood posts.

PRICES			
Height	3 ft wide	3 $\frac{1}{2}$ ft wide	4 ft wide
4 feet	\$2.45	\$2.60	\$2.75

Fittings for 2 or 3-inch Posts, 50c per Gate Scroll Tops, 50c extra			

Climax Poultry Drive Gates \$5.⁴⁵

Turns Both Stock and Poultry

These are splendid heavy gates, suitable for Gardens, Poultry Yards or Fields. Frames are of our regular Standard Farm Gate specifications and the Fabric is No. 12 best galvanized wire very closely woven, making it both Poultry and Large Stock Proof. Each line and stay wire is drawn separately and double wrapped to the frame, making it a Gate throughout that is exceptionally strong and rigid.

FULLY GUARANTEED

These Gates are built strong of first-class materials, the workmanship the very best and fully Guaranteed in every particular. Prices are for Gates complete with Hinges and Our Adjustable Latch for Wood Posts.

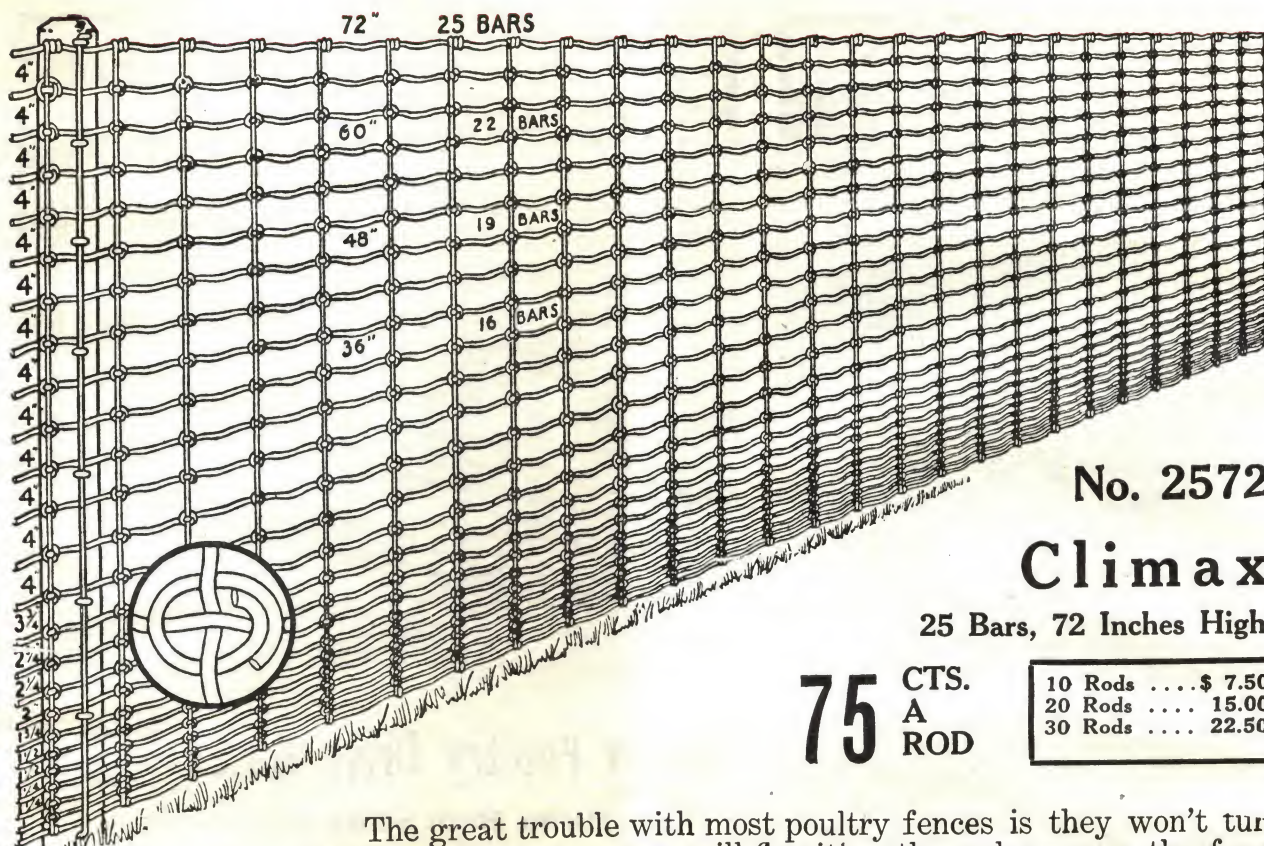

Distances Apart to Set Gate Posts

The widths of Our Gates as given indicates the distance apart to set posts. Example: For a Three-foot Gate set posts three feet apart — a ten-foot Gate ten feet, etc.

Climax

25 Bars, 72 Inches High

75 CTS.
A
ROD

10 Rods \$ 7.50
20 Rods 15.00
30 Rods 22.50

The great trouble with most poultry fences is they won't turn all of the chickens-- some will fly either through or over the fence in spite of you. Here is one of our latest models, it has proven exceptionally satisfactory to those requiring a six foot fence.

The Closest Six Foot Poultry Fence Made

Count the bars.-- There are 25 in this fence, two more than in any other poultry fence of equal height (except our Movable Fence Fabric.) Many bars insure close spacing. Note the tight weave at bottom-- no bottom board is needed for this fence to keep small chicks in. If you have been bothered with your chickens escaping through or over your fence, try this extra close spaced fence-- it will end your troubles.

Heavy and Strong --- Stretches Like a Ribbon

Remember this fence weighs **12½ lbs. to the rod**, it's twice as strong and lasting as Poultry Fences offered by stores or catalog houses which weigh only from four to six pounds to the rod. Also bear in mind that this double weight Climax Fence stands up and turns poultry better because of it's larger wires, besides it stretches like a ribbon.-- There is no sagging, buckling or bulging.

It costs just as much to put up a cheap flimsy Poultry Fence as it does this strong Climax Fence. Then why not put up the Climax?-- It is guaranteed to give you perfect satisfaction or money refunded.

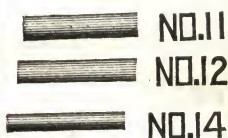

Put up in 10, 20 and 30 rod rolls.

*We Pay the Freight on Thirty Rods
or more or on a Smaller Amount if
Shipped with Other Fence Goods.*

"Bungalow Special" Lawn Fence

12 Cents
A Foot
and up

Handsome
Extra Close Woven
Absolutely Chicken Proof

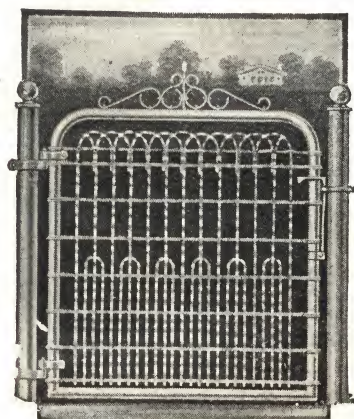

Here's a chance to enclose your lawn with a strictly up-to-date Steel Ornamental Fence, at less than a wood fence costs, besides it will look nicer, last years longer, with practically no expense for up-keep. It's Chicken proof.-- Does not obstruct view of lawn or residence. This fence will please you immensely.

Heavy Ornamental Fabric

The fabric or wire portion of this fence is our Style "A," one of our most popular designs. The pickets are No. 9 wire and the cables No. 12, spaced only 6 inches apart, except the top two, which for added strength are spaced only 2 and 1-2 inches, all of best heavy galvanized wire.

Extra Heavy Steel Posts

The posts furnished with this fence are made from new, extra heavy, full weight pipe, which is from two to three times as heavy, strong and lasting as other metal posts. End, corner and gate posts are 2 inches and line posts 1 and 5-8 inches in diameter and have heavy ball tops.

Walk Gates
See page 23

This picture tells more about this drive gate than we could in a thousand words. It is a standard Mason Gate of dependable quality that has never been excelled, nor is there a gate near its value at the price we quote. Bear in mind that in ordering this or any other Mason Gate you take no chances. If you are not perfectly satisfied in every particular, send it back and get every penny paid to us. Many improved features make Mason Gates better.

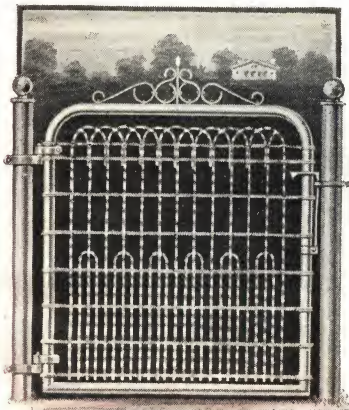

COMPLETE WITH FITTINGS FOR WOOD POSTS

Fittings for 2-inch or 3-inch Steel Posts, 50c Extra

Attractive Walk Gates \$2.70 and up

Notice closely the splendid illustration of this handsome Walk Gate. Certainly you never saw a more pleasing design than this. But, better yet, you never saw a gate more carefully made or that would last longer or give better service. You want the nicest gate you can get for the front entrance to your home, and here it is at a very moderate price.

Complete With Fittings for Wood Posts

Height	3 ft. Wide	3½ ft. Wide	4 ft. Wide
33 in.	\$2.70	\$2.85	\$3.00
39 in.	2.85	3.00	3.15
45 in.	3.05	3.20	3.35

Fittings for 2 or 3-inch Steel Posts, 50c Extra

Width of gates is distance they fill between posts.

A 3 foot gate fills a three foot opening, a 10 ft. gate fills a ten foot opening, etc.

We Pay Freight on Gates When Shipped with Fencing.

Give Your Dogs Real Protection

If you have dogs, you know it is some job to keep them fenced. You can never feel sure that they are safe or will stay in when enclosed with ordinary fence or netting. Dog's dig, climb, jump, and chew in their efforts to escape and keep everlastingly at it, consequently no ordinary fence stands this strain or holds them long.

Making dog fences of the best kind is one of our specialties. Mason Kennel Fences are in use and considered the best by many of the largest breeders and dog hospital owners of this country.

Comes Complete

Mason's Kennel Fences come to you complete, all ready to erect, including special Kennel Fence Fabric, all posts, railing, gates and fittings, everything ready to put in place and they are easily erected by any handy man.---- We furnish complete blueprints and instructions and give a 60 day guarantee that Mason's fence will hold and protect your dogs or it costs you nothing.

HELLWIG'S BOARDING KENNELS

(Registered)

Dr. H. J. Hellwig, Prop.

Toledo, Ohio

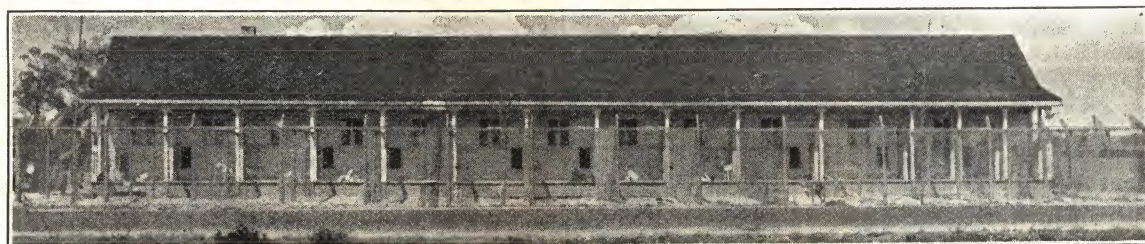

Gentlemen:-

I have in use quite a bit of your fencing for my Kennels and runways, and am very much pleased with it for it is far superior to some I have used. Up to date I have never had a dog to get away by breaking through your fence.

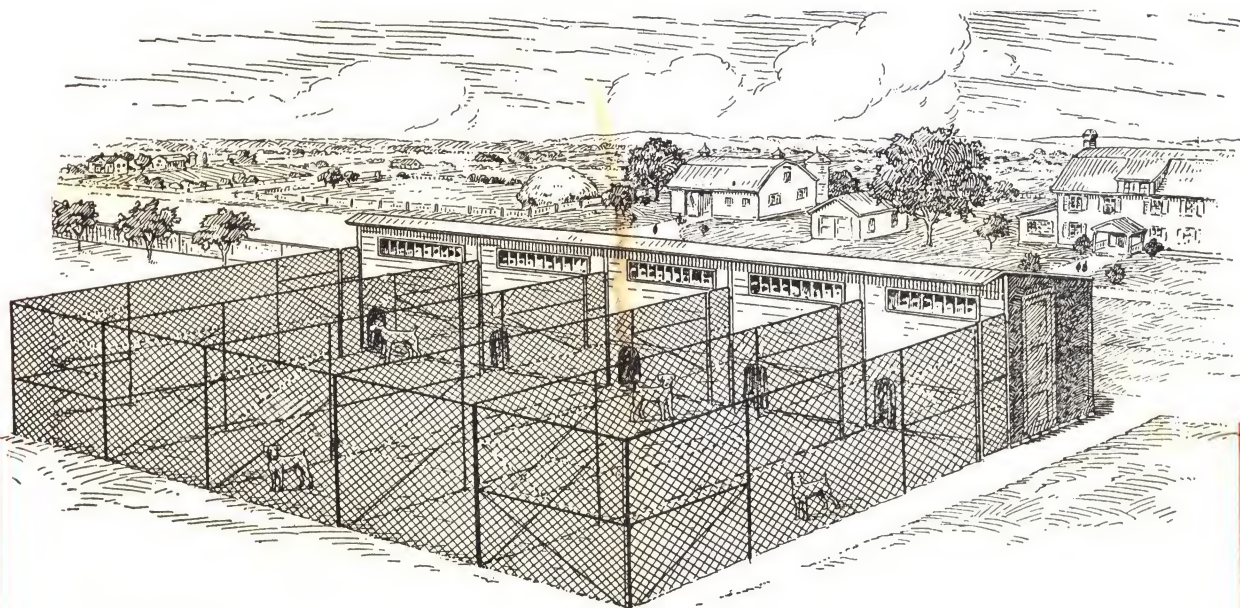

As for your gates I must say they are the best I ever saw, and many of my patrons remark "What strong, well made gates." I now have 56 of them in use. I am sending you a picture of my Kennels.

Yours very truly,

DR. H. J. HELLWIG.

A Popular Design of Kennel Fence

EL-CHER KENNELS

Mrs. A. Prinze, Owner
CHOW CHOWS

Ridgewood, N. J.

Gentlemen:-

I take this opportunity to say, that the fencing I purchased from you has proven very satisfactory, and even the first lot I bought from you nine years ago is still in service.

When I built my New Kennels nine years ago, it was a serious problem to find a suitable fence strong enough to hold CHOWS, a dog with such powerful jaws, as to make ordinary wire inadequate, and after a great deal of investigation I found your fencing the most suitable and have used it ever since.

Yours very truly,
HUGO PRINZE.

We furnish Kennel fences with any number of runs required, and to fit any shaped lot. The height of course depends on the kind of dogs to be fenced.--- We can furnish any height fence.
